ABOUT ME

Graduated in Process Management, with an emphasis on Process Management and Optimization, and I always wanted to acquire more knowledge and evolve professionally, I came into contact with the technology area about 10 years ago working with VB.net and pure HTML, however, since the end of 2018, I have returned to the technology area, to work with Javascript, specifically in Frontend, where I have studied and taken several courses.

In 2021 I started my MBA in Software Engineering, where I learned many new things and evolved day by day. I will continue to improve myself daily as a Front-end Developer and Software Engineer after graduation, seeking to acquire more experience and knowledge!

EXPERIENCE

Software engineer/Developer

August 2022 - at moment

Cast Group

Working directly with the Bosch customer, in the directives and maintenance/refactoring negotiations code using Angular and Typescript.
